

rOpenSci - ImpactStory Report for GitHub repositories

March 31, 2013

Bars with red outlines indicate significant activity for that metric. These include highly discussed (for tweets), highly cited (for forks), and highly recommended (for stars). This badge is added only when a metric is above the 75th percentile and exceed a minimum frequency. This ImpactStory report was

generated using [rOpenSci's rImpactStory package](#). The R script and template to replicate this PDF are available [here](#).
