

rOpenSci - ImpactStory Report for GitHub repositories

Orange bars indicate significant activity for a given metric. Bars are only significant when a metric is above the 75th percentile and exceeds a minimum frequency. Orange bars indicate that the repository was **highly discussed** (for tweets), **highly cited** (for forks), and/or **highly recommended** (for stars).¹ A more detailed report can be viewed at <http://impactstory.org/collection/d4nnp7>.

¹This **ImpactStory** report was generated using **rOpenSci's ImpactStory package**. The R script and template necessary to reproduce this PDF are available [here](#). These metrics were last updated on Sun Mar 31 21:03:00 2013.
