# rOpenSci - ImpactStory Report for GitHub repositories

Orange bars indicate significant activity for a given metric. This badge is added only when a metric is above the 75th percentile and exceed a minimum frequency. These include highly discussed (for tweets), highly cited (for forks), and highly recommended (for stars). This ImpactStory report was generated using rOpenSci's rImpactStory package. The R script and template necessary to reproduce this PDF are available here. A more detailed report can be viewed at http://impactstory.org/collection/d4npn7.
